

PRITAM NANDI

Aspiring Full Stack Developer

9832534386 | pritamn016@gmail.com | [linkedin.com/in/pritamnandi-dev](https://www.linkedin.com/in/pritamnandi-dev) | github.com/Oxpritam

CAREER OBJECTIVE

Computer Science undergraduate with hands-on experience across the JavaScript stack (React.js, Node.js, Express.js) and a solid grounding in Data Structures, Algorithms, and OOP. Comfortable working on both front-end and back-end concerns and eager to contribute to o2h's cross-functional engineering team as a Full Stack Developer Intern, learning new technologies while shipping clean, well-tested, production-ready code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript (basic), Java

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend & APIs: Node.js, Express.js, REST APIs, JSON

Database & Deployment: Firebase, Local Storage, Vercel

Developer Tools: Git, GitHub, VS Code, Postman

Core CS & Practices: Data Structures & Algorithms, Object-Oriented Programming, DBMS, API Integration, State Management, SDLC & Agile Methodology

PROJECTS

SmartQueue — Queue Management System | *React.js, JavaScript, CSS, Local Storage, Vercel*

- Designed and built a React.js queue management system to streamline customer flow and cut waiting times in service environments, covering the full front end to deployment lifecycle.
- Built a responsive UI with reusable React components and efficient state management for a seamless, accessible user experience — directly aligned with front-end best practices.
- Implemented CRUD-based queue operations (add, remove, priority handling) using Local Storage, applying core data-handling logic similar to backend service design.
- Refactored into a modular, component-based architecture to improve maintainability and enable future feature additions.
- Deployed to Vercel with attention to cross-device compatibility and high availability.

React E-Commerce Website | *React.js, JavaScript, CSS, REST APIs, Vercel*

- Developed a responsive e-commerce platform with product browsing, search, filtering, and cart functionality — end-to-end from UI to data integration.
- Integrated REST APIs to dynamically fetch and render product catalog data, improving scalability and real-world data handling experience.
- Implemented cart state management and interactive UI components to support a smooth shopping experience.
- Applied component-based architecture and React best practices to optimize rendering performance and long-term code maintainability.
- Deployed and maintained the application on Vercel, ensuring cross-browser compatibility and mobile responsiveness.

EDUCATION

Brainware University

Expected August 2027

Bachelor of Technology in Computer Science and Engineering | CGPA: 7.09 / 10 — *Kolkata, West Bengal*

Hindu High School

2023

Higher Secondary (WBCHE) | 66.80% — *West Bengal*

Harigram Goenka High School

2021

Secondary (WBBSE) | 74.86% — *West Bengal*

STRENGTHS

- Self-motivated and proactive, comfortable taking initiative on new features and learning unfamiliar parts of a stack quickly.
- Strong analytical and problem-solving mindset backed by a DSA and OOP foundation.
- Effective communicator and collaborator, experienced in working independently through the full SDLC from planning to deployment.
- Detail-oriented under deadlines, with a growth mindset and genuine enthusiasm for full-stack development.
